Farm to fork

Sustainable development is the name of the game at Belle Mont Farm. Situated among 400 acres of fertile organic farmland on the island of St Kitts, the farm grows almost all of the produce used in its restaurant and supports local suppliers to source the rest. Guests should look out for 'pick me' signs hanging from the ripest fruits, ready to be plucked and enjoyed as they lap up the Caribbean Sea views from their private wrap-around verandas or outdoor bathtub.
