Where to Stay in St. Kitts

The St Kitts Marriott Resort and Royal Casino is an option, but is far from inspiring. It's functional with a nice enough beach and pool, but the boutique hotels (below) in St. Kitts make the island experience truly special.

Ottley's Plantation Inn is one of the best escapes on the entire island

Kittitian Hill

This luxury resort is partially open and slated to be finished this year. Situated on the slope of Mount Liamuiga, the property includes guest houses and villas and is situated among the mango trees and monkeys. Head here for the plunge pools rather than beach (although there will be a shuttle bus to the beach). For excellent mountain and ocean views, [Kittitian Hill](#) is a no-brainer. Bonus? The Champagne Brunch at Belle Mont Farm's 'The Kitchen' restaurant is also becoming legendary in St. Kitts.

If you hop over to nearby island Nevis, check out [Nisbet Plantation Beach Club](#) offers beautiful accommodation on beautiful lawns and it's a stone's throw from the beach. There's a bar and restaurant right on the beach. For even more upscale accommodation, [Montpelier Plantation](#) is a former sugar mill that has been transformed into a boutique luxury hotel with a gorgeous pool and restaurants.
